16 CE HOURS

Dear Friends and Colleagues,

The American Dental Implant Association provides interesting and dynamic educational experiences for dental colleagues in an environment that encourages and supports personal friendships and fellowship. This meeting will allow you the opportunity to learn from experts and visionaries in the fields of surgery, periodontics, dental technology, and marketing.

Upon completion of this symposium, participants will be able to understand the cutting-edge surgical techniques, prosthetic techniques, graft materials and new products available in the field of implant dentistry!

We extend a warm welcome to all participants, their families and team members, and thank you for your support. This program will provide you and your team the opportunity to network, exchange information, find solutions, and socialize with colleagues, friends, and their families from around the country and around the world.

Our Team will be there to assist you further in your implant education and for you to experience Las Vegas' superb entertainment, nightclubs, dining, shopping and sightseeing. Prepare for a fascinating, challenging, educational, and thoroughly enjoyable experience! We look forward to welcoming each and every one of you!

Sincerely,

Arun K. Garg, DMD

PRE-SYMPOSIUM WORKSHOPS

APRIL 12, 2012

1) 10 HOT NEW DENTAL MARKETING TRENDS FOR 2012

Avantgard Marketing

Time: 8:30am -12:00pm...Tuition - \$295

4 CE Credit Hours

As a dentist, you are committed to investing in your skills and technology, staying at the forefront of modern dentistry so that you can ultimately provide quality care to your patients. But what about your branding and marketing? Is it working for or against you?

Don't miss this opportunity to work one-on-one with two of dentistry's most experienced dental marketers. During this information-packed, high-energy workshop you will learn how to tailor your message to your target audience and deliver it using cutting-edge technology.

You will learn:

- What works and what doesn't when marketing your practice
- When search engine optimization is worth it
- Why you need a mobile-compatible website
- How to brand your practice right
- Who should be implementing social media marketing and much, much more!

PRE-SYMPOSIUM WORKSHOPS

APRIL 12, 2012

2) EXTRACTION AND IMMEDIATE IMPLANT PLACEMENT: SINGLE TOOTH TO FULL MOUTH RECONSTRUCTION

Dr. Jack Hahn, DDS

Time: 1:00pm - 5:00pm.....Tuition - \$495
4 CE Credit Hours

Extraction and immediate implant placement has become one of the hottest topics in implant dentistry. The workshop will feature this concept ranging from single tooth to full mouth reconstruction.

The latest implant design, NobelActive, will be used to demonstrate these techniques as used in over 2500 implants.

- Guidelines and protocol developed over the last 20 years for immediate implant placement will be presented.
 - A large series of cases will be used to demonstrate this concept in a step-by-step fashion from diagnosis, to surgery, to prosthetic reconstruction and follow-up.
 - A series of statistics will also be presented to document the efficacy of extraction and immediate implant placement; which will include the All-On-Four procedure.
- 
- Decorative dice are scattered in the bottom right corner of the slide.

PRE-SYMPOSIUM WORKSHOPS

APRIL 12, 2012

3) RIDGE SPLIT LECTURE WITH WORKSHOP

Arun K. Garg, DMD and Arvind Philimin, DMD.

Time: 10:00am - 3:30pm.. Tuition - \$895

6 CE Credit Hours

Atrophic bone ridge presents a unique challenge to the dental implant surgeon.

The segmental ridge split procedure provides a quick and predictable method to predictably expand and graft (and most frequently simultaneous place implants) in an atrophic ridge.

This workshop will discuss the technique and detail as well as provide for hands on animal model workshop.

PRE-SYMPOSIUM WORKSHOPS

APRIL 12, 2012

4) SOCKET PRESERVATION WITH HANDS-ON WORKSHOP

Arun K. Garg, DMD

Time: 4:00pm - 6:00pm....Tuition - \$295

2 CE Credit Hours

Dimensional changes after tooth extraction result in bone resorption which complicates restoration with dental implants or removable prosthesis.

Preservation of the bone ridge of the tooth extraction is critical to achieve optimal aesthetics in periodontics, prosthodontic results, and of course will maximize the bone available for implant placement.

This lecture and workshop will review the literature, discuss the step by step techniques and materials to use as well as include a hands animal model workshop.
